Billing Policies for Routine Annual Exams:

Yearly Physical Exams and Medicare Annual Wellness Visits are an important part of your health care maintenance and are intended to assess your overall health. Due to the extensive nature of the exam, we ask that if you are experiencing specific problems or are discussing chronic problems, please schedule a separate office visit to address those concerns. If those concerns are addressed during your physical exam or annual wellness visit, you may incur an additional charge that applies to your co-pay, co-insurance, or deductible.

Most insurance companies require a physical exam or annual wellness visit to be scheduled at least 365 days apart. If you wish to schedule your physical exam prior to 365 days past your last exam, please call your insurance company to confirm coverage.

Some routine testing, which may include Labs or a screening EKG, may not be covered by your insurance policy. As the insured, it is your responsibility to contact your insurance carrier to confirm benefits.
